## SKILL SUMMARY

Web Development	<div></div>
Mobile App Development	<div></div>
Data Science	<div></div>
UI/UX Design	<div></div>

## PROFESSIONAL SUMMARY

Software Engineer specializing in web and mobile application development, with strong expertise in React, React Native, Next.js, TypeScript, and modern JavaScript technologies. Experienced in building scalable, user-friendly applications, integrating RESTful APIs, and working with data science concepts including data extraction, web scraping, and data processing. Possesses solid knowledge of UI/UX design principles, Linux environments, and version control with Git. Also brings a multidisciplinary background combining software engineering with cybersecurity research and voice-over production, enabling a unique blend of technical precision, creativity, and communication skills. Highly motivated, self-driven, and passionate about creating impactful digital solutions.

## PROJECTS

### Khdamli – Home Services Mobile Application

Mobile application that connects users with daily home service providers

(plumbing, cleaning, painting, construction).

Developed using React Native, TypeScript, Expo, and NativeWind. Features include service listing, booking system, posts, and user interaction.

### Roeya – Media Website

A professional media website built with Next.js and Express.js.

Focused on delivering news and digital content efficiently.

Emphasizes responsive design, performance, and clean UI/UX.
